

# Cisco Partner Meet Bangladesh

Dear Partner,

For forward thinking organizations that are actively transforming their operations, aligning technological needs with business objectives are critical. As one of our top partner organizations, you have a great opportunity to drive your clients network transformation.

While they are looking for the right technology solutions to create and sustain a smart, efficient network, you are strategically positioned to recommend Cisco's next gen Meraki, Security solutions and data center networking. These solutions can be catalyst in their transformation driving better business results -designed with a focus on operational efficiency, security and productivity, foster innovation and simplicity while enabling seamless experiences.

Here's what you can look forward to at this event:

- Learn all about our future-ready Meraki and Security solutions to enhance your network efficiency and security.
- Learn about our data center networking solutions built for scale with industry-leading automation, programmability, and real-time visibility.
- Connect with Cisco's senior experts over a networking dinner.

09:30 am  
onwards

19<sup>th</sup> April 2024

Sarah Resort  
Rajabari, Gazipur,  
Dhaka, Bangladesh
