

# Get onboard with AI bandwagon

AI is ready to change how technology is being used to achieve business objectives and the way we deploy, operate and consume technology infrastructure. As part of Cisco's ongoing commitment to AI innovation, Cisco is powering and protecting the engine of AI revolution and also providing AI-enabled solutions spanning networking, security, collaboration, and observability.

We are thrilled to invite you to a collaborative event on **“Get onboard with AI bandwagon”**.

In this event, you will be able to get a view from Cisco solution experts on latest innovations for building AI capabilities and AI-enabled offerings.

Cisco AI ready infrastructure

**60 mins**

Cisco AI capabilities in networking and security portfolio

**60 mins**

Cisco AI Operations and observability

**60 min**

Elevate customer and employee experience with AI

**45 min**

We will also be conducting real-time demonstration with detailed walkthrough of solutions, providing you with a deeper understanding of capabilities and how it can address specific use cases for Organisations.
